## CITIZENSHIP:

- Chilean, U.S. permanent resident

## EDUCATION:

Massachusetts Institute of Technology

- Ph.D. in Financial Economics, 2009

Universidad de Chile

- M.A. in Applied Economics (*Valedictorian*), 2001
- B.A. in Engineering (*Valedictorian*), 1999

## WORK EXPERIENCE:

McCombs School of Business, The University of Texas at Austin - *Assistant Professor of Finance* 2009-present

- Conducted research about access to finance, financial intermediation, financial stability, economic policy, economic development and entrepreneurship
- Taught advanced corporate finance and financial planning at the undergraduate and MBA level

Chile Central Bank - *Consultant* 2007-2010

- Examined the effect of Partial Credit Guarantee Programs on the economic performance of banks and borrowers - Found that the program increased lending to SMEs in \$420 million, but reduced the incentives to repay in 2% of the loans
- Led a team of economists from the Chile Central Bank and the Chile Superintendency of Banks (SBIF) that studied the economic implications of the largest financial institutions merger in Chile - Found that the merger was not a threat to bank competition

The World Bank - *Consultant* 2007-2008

- Estimated the economic impact of the Partial Credit Guarantee Program in Chile FOGAPE - Found that the program in Chile had a 70% effectiveness, and generated less economic distortions than most of the programs in other countries

Chile Department of Commerce - *Advisor* 2001-2004

- Led a team that regulated the price of fixed line phone communications, and the team that regulated the access fee for cell phone carriers - Reduced the cost of cell phone calls in 20%
- Collaborated in the regulation of the prices of water and sewerage services and power distribution
- Worked as a member of a multidisciplinary group that reformed the Antitrust law in Chile

Enersis S.A. - *Consultant* 2003

- Estimated the rate of conversion of bonds in an illiquid market - The estimation was approved by bondholders and stockholders and \$2 billion of debt was converted to equity

## PRO BONO WORK:

Banco ADOPEM - *Consultant* 2006-2007, 2012-present

- Investigated the effect of bank competition on firms' default rates, access to finance, and performance
- Conducted a randomized controlled trial to evaluate the bank's financial literacy program

BancoEstado Microempresas - *Consultant* 2008-2010

- Implemented a randomized controlled trial to measure the effectiveness of new renegotiation programs for delinquent borrowers
- Implemented a randomized controlled trial to evaluate the implications of increasing the debt capacity of firms
- Assessed the effect of loan officer turnover on the access to credit and repayment rate of firms

## **PUBLICATIONS:**
